Dear Investor:

We are pleased to release our February report. In the whole February, BTC price bounced from support of 3400 and reached 4200 high, still didn't break through previous resistance level around 4200. Before the market shows a bullish signal, people will keep staying away and leave very limited arbitrage opportunity comparing with last year.

In February, Golden Alpha has made gross return of 1.16% and 0.83% after all the fee. The Unit price before and after the fee are 1.1012 and 1.0975 separately.

## Capital Allocation
