

Performance report

Dear Investor,

We are pleased to release our April report. It is a cheerful beginning in April that Bitcoin price finally broke through 4200 USD and slightly pulled back after touching 5600 USD. The whole market was recovering with BTC bounce in April, but the market still needs more time for the consolidation. In future, if market conditions continue to improve, we will optimize our fund allocation to strive for greater profits for our investors.

In April, Golden Alpha has made gross return of 2.997% and 2.055% after all the fee. The Unit price before and after the fee are 1.1405 and 1.1301 separately.
