

Performance report

Dear Investor,

We are pleased to release our March report. While BTC price was slightly ascending to the roof of 4200 USD, a new format named IEO brought enthusiasm to crypto market again after 13 months fall in prices. IEO boom leads the price rally of some altcoins which indicates new capital injection in the market. We might see more positive price movement in the rest time of this year. Hence, more funds will be allocated to active trading according to the changes in market.

In March, Golden Alpha has made gross return of 1.26% and 0.896% after all the fee. The Unit price before and after the fee are 1.1114 and 1.1074 separately.
